Specifications are subject to change without notice.

Electrical Performance								
Voltage	Option 1	Option 2	Phase	Frequency	Amperage(1)	kW	kVa	P.F.
120/240 Zig-Zag	-	Х	Single	60 Hz	453	109	109	1.0
120/240 Delta(2)	Х	-	Single	60 Hz	302	72	72	1.0
120/208 Low Wye	Х	Х	Three	60 Hz	450	130	162	0.8
120/240 Delta	Х	-	Three	60 Hz	390	130	162	0.8
139/240 Low Wye(3)	-	Х	Three	60 Hz	370	123	154	0.8
277/480 High Wye	Х	Х	Three	60 Hz	195	130	102	0.8
Notes: (1) Maximum current at terminal block. (2) 120/240V 1-PH is available by pulling two phases off the 120/240V Delta connection. (3) 139/240V 3-PH is available with the rheostat adjustment from the 120/208V Low Wye connection. (4) Option 1 and Option 2 are three position switches.								

WINPOWER has over 85 years experience manufacturing industrial grade generators. Our mobile diesel units are built to handle standby and prime power applications. We are able to give customers the best long-term value by using high quality components with proven engineering designs. Every WINPOWER generator is manufactured in our Le Center, Minnesota facility.

Generator Specifications		
Rating	125/40°C (Standby)	
Туре	4 Pole - Revolving Field	
Speed	1800 rpm	
Insulation System	Class H	
Connection	12 Lead	
Stator Windings	Double Layer Concentric	
Pitch	2/3	
Harmonic Distortion	<5%	
Efficiency Peak	~93.5%	
Coupling	Flexible Disc	
Bearing (Maintenance Free)	1	
Automatic Voltage Regulation	+/- 1.5%	

Engine Specifications			
Make	FPT		
Model	NEF67 TM1X		
Туре	Diesel		
Gross Horsepower-Standby	201 HP		
Injection System	Direct		
Speed Governor	Mechanical		
Cylinders	6		
Total Displacement	6.7 L		
Bore x Stroke	mm 104 X 132		
Aspiration	Turbocharged		
Total Cooling Capacity	6.6 gal		
Lube Oil Spec	10W 30 API CF-CH4		
Fuel Spec	EN 590		
Exhaust Outlet Size @ Muffler	5.0 in		
Electrical System (Negative Ground)	12 VDC		
Alternator	90 Amps		
Battery (Not Included)	BCI 31 900 CCA		

Critical Dimensions (inches)

DX-130

Safety

At WINPOWER, we take safety seriously. The DX130 is designed with numerous safety features that help to protect personnel and equipment.

- Dual circuit breakers for high and low voltage overcurrent protection
- Automatic shutdowns protect the terminal block connections from access during operation
- Automatic shutdown if an operator attempts to change voltages while the generator is operating
- · Belts and pulleys are protected from unintentional access with guards
- Sophisticated electronic controls monitor engine and generator parameters to detect problems to warn operators and/or shut down the system

Controller

- Digital control/instrument panel resets safety parameters automatically for the selected voltage
- Lead connections are easy to connect to terminal block
- DC power disconnect switch preserves the battery when the generator is not in use
- Front panel USB connection allows easy access for service
- Front panel voltage adjustment rheostat
- All engine and generator metering is digital

Receptacle Package

- Full overcurrent protection
- 2xNEMA 5-20 GFCI duplex receptacles
- 2x50A Twist-Lock (CS6369C) receptacles
- Full power terminal block
- Shore power allows the standard block heater and battery charger to be powered with a standard extension cord

Trailer Features

- DOT approved diesel tank and trailer
- 10,000 lbs GVWR with electric brakes
- 2 5/16" coupler included standard
- Couplers are bolt on allowing the operator to quickly change devices and adjust the coupler height to better accommodate a variety of tow vehicles
- Front and rear stabilizing jacks included standard
- Optional spare tire and steel tool box available
- Tire Size: 225/75 15

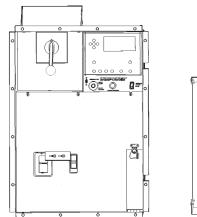

Fuel Consumption

 100% Load
 8.80 Gallons/Hr.

 80% Load
 7.71 Gallons/Hr.

 50% Load
 5.31 Gallons/Hr.

 *** 175 gallon single wall tank standard

Selector Switch Features

Option 1

3 Position: 120/208 3-PH Low-Wye, 120/240 3-PH delta (120/240 1-PH is available using two poles excluding wild leg) 277/480 3-PH High-Wye

Option 2

3 Position: 120/240 1-PH Zig-Zag, 120/208 3-PH Low-Wye (139/240 3-Ph available with rheostat adjustment) 277/480 3-PH High-Wye

Derating Factors

•	Temperature > 104° F:	3% per 10° F
•	Altitude > 1000 ft:	3% per 1000 ft

Prime Power:

3% per 1000 ft 10%

Warranty

WINPOWER warrants its products to be free from defects in material and workmanship for one year or 1000 hours. The engine warranty is administered through FPT's service network for one year unlimited hours.

Accessories/Options:

- Battery Charger (Standard)
- Block Heater (Standard)
- Two Wire Start (Standard)
- 300 Gallon Fuel Tank
- Cam-Lock
- 3" Pintle
- 50 A Twist-Lock Plug
- Cam-Lock Plug
- Spare Tire
- Tool Box
